

Patent Application of Terry D. Good for "Trailer Mounted Scaffold Rack,
Compartment, and Trough System for Organizing, Transporting, and Storing
Construction Scaffolding and Accessories" continued – Page 9

ABSTRACT:

A scaffold rack system for safely and easily handling, organizing, transporting, and storing construction scaffolding and accessories.

This trailer or skid mounted rack system consists of support arms with retainers to hang the scaffold panels on, a trough to contain the scaffold bracing, and compartments to store and secure scaffold platforms or planks.
